EXHIBIT BREAKDOWN:

TEST RESULT(S):

1. Total Lead Content in Paint or Similar Surface Coating – U.S. CPSC 16 CFR 1303 and U.S. Consumer Product Safety Improvement Act of 2008 (CPSIA), Title I, Section 101

Test Method: CPSC-CH-E1003-09.1. Analysis was performed by ICP-OES/ ICP-MS.

Test Item	Total Lead (Pb) (ppm)		Conclusion
	Result	Limit	
07	39	90	PASS
09	14	90	PASS
15	ND	90	PASS
26	ND	90	PASS

Note: ND = Not Detected (Lab reporting limit: 10 ppm)
ppm = part per million = mg/kg = milligram per kilogram

3. Total Lead Content in Plastic Coated Cords – Client's Request to Test According to the Reformulation Level(s) Set forth in the Consent Decrees of Similar Products (Court Case No.: San Francisco Superior Court 312962)

Test Item	Result - Total Lead (Pb) (ppm)	Conclusion
17	ND	PASS (See remark)
18	ND	PASS (See remark)
19	ND	PASS (See remark)
20	ND	PASS (See remark)
21	ND	PASS (See remark)
22	ND	PASS (See remark)

Method: Sample was digested with reference to EPA 3052. The lead content was analyzed by Inductively Coupled Argon Plasma Spectrometer / Inductively Coupled Plasma Mass Spectrometer.

Remark: Proposition 65 requires businesses to warn Californians about exposures to certain listed chemicals known to cause cancer, birth defects, or other reproductive harm. If a business exposes a Californian to a listed chemical without providing a warning, then the business may be sued for the possible violation of Proposition 65. The business will then have the burden of proving that the listed chemical in the product is under the safe harbor limit or that the anticipated exposure level will not pose a significant risk of cancer or reproductive harm.

The reformulation level set forth in the Consent Decrees of similar products to the Sample is **300 ppm**. The reformulation levels set forth in the various Consent Decrees are only the binding requirements for the defendants named in the case, and by complying with the reformulation requirements, the defendants are protected from further Proposition 65 violations for the products that are covered in the case. However, the reformulation levels set forth in the various Consent Decrees are not necessarily the safe harbor limits. The reformulation levels set in the Consent Decrees are usually expressed in relative concentration levels (i.e., mg/kg, ppm) while the safe harbor limits identify a level of exposure to a listed chemical in micrograms per day. Therefore, for businesses that are not named in the Consent Decrees as defendants, complying with the reformulation levels of Consent Decrees does not fully protect the businesses from being sued for the possible violation of Proposition 65. These businesses may still be sued for the possible violation of Proposition 65 and will have the burden of proving that the listed chemical in their products are under the safe harbor level or that the anticipated exposure level will not pose a significant risk of cancer or reproductive harm.

If your product contains any amount of a listed chemical, the only way to fully avoid the possibility of the burden of proving that the listed chemical in your product is under the safe harbor limit or that the anticipated exposure level will not pose a significant risk of cancer or reproductive harm is to provide a warning about the exposures to the listed chemical known to cause cancer, birth defects, or other reproductive harm. Please consult MTS for more details regarding the different options of labeling and the mechanics of labeling.

Note: ND = Not Detected (Lab reporting limit: 10 ppm)
ppm = part per million

Section A – Sample Information:

This section must be completed.

Sample Description: TWIN HOUSE BED

Item/SKU Number: N37P176708B/ N37P176708K

Indicate if the sample is a:

- ☐ Panel
☒ Finished Good

Section B – EPA TSCA Title VI / **SOR/2021-148** Applicability:*This section must be completed. The regulation can be viewed at: <http://www.epa.gov/formaldehyde>*

- ☐ Composite wood **is not** present in the sample.
If checked, proceed directly to Section C.
- ☒ Composite wood **is** present in the sample **and**:
If checked, indicate if regulated and/or exempt. Then proceed to Section C.
- ☒ **Regulated** according to 40 CFR 770
If checked, answer the following three questions and complete the chart in Section D.

1. Indicate the type(s) of regulated composite wood (check all that apply):

- ☐ Hardwood plywood – veneer core (HWPW-VC)
☐ Hardwood plywood – composite core (HWPW-CC)
☒ Medium-density fiberboard (MDF)
☐ Thin medium-density fiberboard (Thin MDF)
☐ Particleboard (PB)

2. Indicate laminated product status under §770.4 (effective after March 22, 2024 for laminated portion):

- ☒ Sample **is not** a laminated product
- ☐ Sample **is** a laminated product **and**:
- ☐ Laminated portion **is not** exempt from the definition of hardwood plywood per §770.4
 - ☐ Laminated portion **is** exempt from the definition of hardwood plywood per §770.4(a)(1)
 - ☐ Laminated portion **is** exempt from the definition of hardwood plywood per §770.4(a)(2)

TSCA Title VI and CARB and SOR/2021-148 Declaration of Conformity

3. For finished goods, indicate if labeling is present according to §770.45(c):

- ☐ Sample is not a finished good
- ☒ Sample is a finished good and:
- ☐ Labeling is not present
- ☐ Labeling is not present and not required per §770.45(e)
- ☒ Labeling is present

☐ Exempt according to 40 CFR 770

Indicate the type(s) of exempt composite wood (check all that apply):

- ☐ Hardboard
- ☐ Oriented strand board
- ☐ Curved plywood
- ☐ §770.1(d)
- ☐ §770.1(e)(1)
- ☐ §770.1(e)(2)
- ☐ Other List other type(s) of exempt composite wood and explain exemption:

Section C – CARB §93120 ATCM for Formaldehyde Applicability:

This section must be completed. The regulation can be viewed at: <http://www.arb.ca.gov/toxics/compwood/compwood.htm>

Indicate if the sample will be sold in California. If "No" is checked, complete Section D if necessary from Section B, then proceed to Section E. If "Yes" is checked, complete the remainder of this section.

- ☐ No
- ☒ Yes

☐ Composite wood is not present in the sample.
If checked, proceed directly to Section E.

☒ Composite wood is present in the sample and:
If checked, indicate if regulated and/or exempt. Then proceed to Section E.

☐ Regulated according to the ATCM.
If checked, answer the following two questions and complete the chart in Section D.

1. Indicate the type(s) of regulated composite wood (check all that apply):

- ☐ Hardwood plywood – veneer core (HWPW-VC)
☐ Hardwood plywood – composite core (HWPW-CC)
☒ Medium-density fiberboard (MDF)
☐ Thin medium-density fiberboard (Thin MDF)
☐ Particleboard (PB)

2. For finished goods, indicate if labeling is present according to §93120.7(d):

- ☐ Sample is not a finished good
☒ Sample is a finished good and:
☐ Labeling is not present
☒ Labeling is present

☐ Exempt according to the ATCM.

Indicate the type(s) of exempt composite wood (check all that apply):

- ☐ Hardboard
☐ Oriented strand board
☐ Curved plywood
☐ §93120.7(b)(1)
☐ §93120.7(b)(2)(A)
☐ §93120.7(b)(2)(B)
☐ Other List other type(s) of exempt composite wood and explain exemption:

Section D –Regulated Composite Wood Details:

All fields in this section must be completed if regulated composite wood is present in the sample as declared in Section B and/or Section C. Upon completion of this section, proceed to Section E.

Panel Types and Emission Limits Reference:

Hardwood plywood (HWPW) ≤ 0.05 ppm
Medium-density fibreboard (MDF) ≤ 0.11 ppm
Thin medium-density fibreboard (Thin MDF) ≤ 0.13 ppm
Particleboard (PB) ≤ 0.09 ppm

Examples of resin type include but are not limited to:

- No-added formaldehyde-based (NAF) resin
- Ultra low-emitting formaldehyde (ULEF) resin
- Phenol-formaldehyde resin

Certificate No. HK/EPA/2018/12/3001

The Manufacturer

KIM TIN MDF DONG PHU CORPORATION

Lot C1-C14, No. 1 Street, Nam Dong Phu Industrial Zone
Tan Lap Commune, Dong Phu District, Binh Phuoc Province, Viet Nam

for manufacturing of composite wood products listed below has been certified by
SGS Hong Kong Ltd. (TPC-14) as meeting 40 CFR 770.15, Title VI, Toxic Substances Control Act.

The Manufacturer demonstrates production of composite wood products listed below
complying with 40 CFR 770.10, Title VI, Toxic Substances Control Act.

Certified Composite Wood Product	Certified Thickness
Thin Medium Density Fiberboard	2.5mm, 2.7mm, 3mm, 3.5mm, 4mm, 4.5mm, 4.75mm, 5mm, 5.2mm, 5.5mm, 6mm, 6.4mm, 8mm
Medium Density Fiberboard	9mm, 10mm, 12mm, 14mm, 15mm, 17mm, 18mm, 19mm, 21mm, 24mm, 25mm

This certificate is for the composite wood products manufacturing at the production facility stated above.
The production facility meets the quality assurance requirements stated in 40 CFR 770.20-22,
40 CFR 770.24, 40 CFR 770.40 and 40 CFR 770.45, Title VI, Toxic Substances Control Act.

This certificate is valid only if subsequent verification is conducted and the manufacturer
continues to meet the requirements stated in 40 CFR 770.20-22, 40 CFR 770.24,
40 CFR 770.40 and 40 CFR 770.45, Title VI, Toxic Substances Control Act.

This manufacturer has been certified since 5 December 2018
This certificate (Issue 7) is issued on 5 December 2022 and valid until 5 December 2024

This test report is governed by the Terms and Conditions, available on request or attached to the end of this test report. Attention is especially drawn to the limitations of liability, indemnification and jurisdictional provisions defined therein. This report is issued strictly based on the testing of the samples submitted by you. The test results in this report refer only to the sample(s) actually tested and do not refer or be deemed to refer to any bulk production from which such sample(s) may be said to have been obtained. In the event that Eurofins MTS Consumer Product Testing (Vietnam) Co. Ltd ("ERF") was requested to survey and test any bulk production quantity of samples, ERF, in the absence of any contrary written instructions, performed random sampling of bulk production for testing purposes. Variations in the conditions under which samples are stored, transported, etc., may lead to variations in the test results. ERF cannot anticipate and shall not be held responsible for variations in test results that may be due to factors beyond ERF's control, such as, sample cross-contamination, evaporation of volatile substances due to storage temperature, humidity, etc. This report does not constitute a recommendation, actual or implied, for any specific course of action. Other than the expressed warranties made in the Terms and Conditions of the ERF Test Request Form, ERF makes no warranties or representations either express or implied with respect to this report. In no circumstances whatsoever shall ERF be liable for any consequential, special or incidental damages arising out of, or in connection with, this report.

Image Appendix

NEW WARNING REQUIREMENT: Products manufactured after August 30, 2018 will require the new warning labels for Proposition 65.

The new warning labels have different requirements, as the minimum language requirement is different. For warnings that are on the product or on the immediate packaging of the product, a short-form warning may be used. The short-form warning requires that the warning include the word "WARNING" in all capital letters and bold print and further require that a symbol consisting of a black exclamation point in a yellow equilateral triangle with a bold black outline precede the warning. The short-form warning also requires the disclosure of the associated dangers of the chemical with either "Cancer", "Reproductive Harm" or both, followed by the URL for the Proposition 65 Warnings website. Please see below example for the shortened label if the warning is on-product:

- ▲ **WARNING:** Cancer - www.P65Warnings.ca.gov
- ▲ **WARNING:** Reproductive Harm - www.P65Warnings.ca.gov
- ▲ **WARNING:** Cancer and Reproductive Harm - www.P65Warnings.ca.gov

information on the product." It must appear in a minimum of 6-point type.

The long version of the new warning can also be used instead. For the long version of the new warning, it requires that the warning includes the word "WARNING" in all capital letters and bold print and further require that a symbol consisting of a black exclamation point in a yellow equilateral triangle with a bold black outline precede the warning. The new regulations further specify that the warning disclose a chemical by name and the associated dangers, along with the URL for the Proposition 65 Warnings website. Please see below template for the long version of

New Warning Label

If any label provides consumer information for a product in a language or languages other than English, a warning must also be provided in the same languages on the label, labeling or sign.

Below are other options as well.

1. A product-specific warning provided on a posted sign, shelf tag, or shelf sign for the consumer product at each point of display of the product;
2. A product-specific warning provided via any electronic device or process that automatically provides the warning to the purchaser prior to or during the purchase of the consumer product, without requiring the purchaser to seek out the information;
3. For Internet purchases, a warning provided by "including either the warning on the product display page, or a clearly marked hyperlink using the word 'WARNING' or by otherwise prominently displaying the warning to the purchaser prior to completing the purchase;"
4. For catalog purchases, a warning provided in the catalog in a manner that clearly associates it with the item being purchased;
5. If an on-product warning is being provided for Internet or catalog purchases, the warning provided on the website or in the catalog may use the same content as the on-product warning.

For products that contain raw wood, the warning should be according to the below template.

▲ **WARNING:** Drilling, sawing, sanding or machining wood products can expose you to wood dust, a substance known to the State of California to cause **cancer**. Avoid inhaling wood dust or use a dust mask or other safeguards for personal protection. For more information go to www.P65Warnings.ca.gov/wood.

For furniture products, the warning should be according to the below template.

▲ **WARNING:** This product can expose you to chemicals including [name of one or more chemicals known to cause cancer, name of one or more chemicals known to cause reproductive toxicity, or name of one or more chemicals known to cause both cancer and birth defects or other reproductive harm], which is [are] known to the State of California to cause **cancer** or birth defects or other **reproductive harm**. For more information go to www.P65Warnings.ca.gov/furniture.

EXHIBIT G	
(Examples of Products For Which Warnings May Be Given In Owner's Manual)	
Warning label may be on product, box, insert, or manual	
Item No.	Description
1.	Patch /pin cords, and cables, adapter cord, coaxial cable, A cord, S-VHS cord (when sold concurrently with equipment that also appears on this list)
2.	AC adaptor cords (when sold concurrently with equipment that also appears on this list)
3.	Air Pumps
4.	Power and patch cords for professional/commercial audio/video equipment used in field (when sold concurrently with the equipment)
5.	Interconnection or patch cables for portable audio/video/computer components or peripheral devices (when sold concurrently with equipment that also appears on this list)
6.	Power adapters and cord for use with automotive cigarette lighter or similar power outlet (when sold concurrently with equipment that also appears on this list)
7.	Power and interconnector cords for broadcast equipment used in field (when sold concurrently with the broadcast equipment)
8.	Coffee warmer / urn (party-size)
9.	Adapter and power cords for laptop and desktop computers, peripherals (when sold concurrently with computer or peripheral device)
10.	Computer Joystick (owner's manual warning authorized only where reference to the owners manual is necessary to program or install software for use; alternatively, warning that otherwise would be placed in owner's manual must appear as part of on-screen programming/installation instructions)
11.	Computer Mouse (when sold concurrently with equipment that also appears on this list)
12.	Digital camera cords and cables (when sold concurrently with digital camera)
13.	Portable DVD Player (e.g., with handles / carrying case)
14.	Power and adapter cords for portable electronic musical instruments and keyboards (when sold concurrently with the electronic musical instrument or keyboard)
15.	Foot Massagers (two)
16.	Laptop Computer
17.	Sandwich Maker
18.	Telephone handset cord (handset-to-phone portion only where sold concurrently with telephone with programmable features)
19.	Thermoelectric coolers
20.	Travel Steamer
21.	Vacuum cleaner, deep cleaner/extractor and/or carpet shampoo machine (both regular or retractable cord models)
22.	Vaporizer
23.	Video Camera power cords, adaptor cords (e.g., AC, auto), charger cords, connecting cables (when sold concurrently with video camera)
24.	Video game accessories (owner's manual warning authorized where: i) accessory is sold with another product for which owners manual warnings are allowed; or ii) reference to the owners manual is necessary to program or install software for use). Warning that would otherwise be placed in owner's manual may alternatively be displayed as part of on-screen programming/installation instructions where use of such are necessary for initial product use.
25.	Stand alone video not switcher with non-integrated mouse
26.	Portable warming tray
27.	Cord of handheld waxen used for hair removal
28.	Mobile telephones
29.	Camera Cords and cables (only if sold concurrently with camera)
30.	Telephones with programmable features

 Part 1.jpg

EXHIBIT H	
(Warning Required)	
Labeling required on product, box or point of sale sign	
Item No.	Description
1.	Audio or video adapter cords for portable products
2.	Audio or video cable for portable products
3.	Audio / Video / Computer / telecommunications cables packaged individually for retail sales
4.	Automotive cigarette lighter adapters
5.	Blender (hand-held models)
6.	Camera cords and accessories
7.	Carving knife
8.	CB radio handsets
9.	Clip-on lights
10.	Coffee grinder
11.	Computer joystick
12.	Computer mouse cords
13.	Computer peripheral AC adapter cord and I/F cable for portable computers or portable peripheral devices
14.	Computer peripheral PCMCIA card cord for portable computers
15.	Computer peripheral wires & cables designed to plug into front of desktop computer (e.g., cords)
16.	Computer peripheral wires & cables for portable computers and those
17.	Computer speaker cords used with portable computers
18.	Corded shaver
19.	Corn popper
20.	Curling iron
21.	Data logger cable included with portable devices
22.	Desktop computer power/patch/pin cords designed to plug into, front of computer
23.	External CD/DVD and tape drives for portable computers
24.	Food processor/chopper (hand-held models)
25.	Griddle
26.	Grill (countertop)
27.	Hair clipper (corded)
28.	Hair dryer
29.	Hand held drink mixer
30.	Hot pot/Kettle/Tea brewer (unless cord attached to separate base unit)
31.	Ice crusher
32.	Iron (unless cordless)
33.	Juicer/Juice extractor (household or portable)
